Notes:

- A Cluster to preserve open space to maintain open approach corridor at and near runway ends.
- B Infill development up to average of surrounding residential area is allowed, but is appropriate only if nonresidential uses are not feasible
- C Promote high density and intensity mixed use development (15 or more d.u. per acre)
- D Maintain current comprehensive plan designation and zoning designation.
- E Special Function Land uses should be prohibited.
- F 50-100 people per acre allowed if on airport and aviation-related.
- G Special Function Land uses should be avoided.

- **“L” Limited** – Uses or activities that may be compatible with airport operations depending on their location, size, bulk, height, density and intensity of use.
- **“LSC” Limited Special Conditions** – Development should be moved away from the extended runway centerline. Open space should be devoted to areas that experience elevated risk.
- **“P” permitted** – Uses or activities that should be permitted, however, these activities should be reviewed to ensure that they will not create height hazard obstructions, smoke, glare, electronic, wildlife attractants, or other airspace hazards.
- **“X” Prohibited** – uses or activities that should not be constructed near the airport.

All uses or activities identified herein are subject to intensity and density limitations set forth in Table F-1. Particular attention should be given to developments that when located in combination with other permitted or limited activities may create cumulative impacts on airport operations. All uses should be reviewed to ensure that they will not create airspace hazards.
